ABOUT ME

Interaction Designer and Full-Stack Engineer with a Master's in AI & Robotics. Passionate about bridging the gap between complex technical capabilities (AI/ML) and intuitive, user-centric interfaces. Experienced in end-to-end product development, from creating user journeys and Figma prototypes to collaborating with engineering teams for pixel-perfect implementation using modern UI frameworks (Bootstrap, MUI).

WORK EXPERIENCE

Triple-IN GmbH – Hamburg, Germany

Interaction Designer and Front-End Developer

[09/2025 – Current]

- Transformed legacy Excel workflows into a high-performance digital platform using **React** and **Swift**, significantly improving data accessibility and team productivity.
- Designed a custom **MUI-based frontend** to simplify complex production data, using insights from user research to ensure the interface met both technical and stakeholder requirements.
- Led the end-to-end **UX process**, from **wireframing** to **UI mockups**, to integrate seamlessly with Odoo ERP, which drove higher user adoption and allowed operations to scale without friction.

Teleconsys spa – Rome, Italy

Full Stack Software Engineer

[07/2022 – 09/2025]

- Directed the **Product Design (DeskNow)** and front-end implementation of an enterprise smart-office platform by creating high-fidelity mockups in Figma and utilizing **Bootstrap** and **MUI** to iterate on designs based on user feedback.
- Managed the software lifecycle for mission-critical radiological waste software while working closely with stakeholders, product managers, and engineering to align **complex requirements** with technical execution.
- Orchestrated a comprehensive **UX Refactoring** of legacy applications by standardizing design systems to significantly enhance system usability and graphic consistency for a modern end-user experience.
- Designed the user experience for an **AI-driven RAG** system in the legal sector by translating complex **LLM** cap abilities and Vector Database interactions into intuitive and accessible user interfaces.

EDUCATION AND TRAINING

Master's Degree in Artificial Intelligence and Robotics

La Sapienza - Univeristy of Rome [10/2020 – 10/2022]

City: Rome | **Country:** Italy | **Final grade:** 110L/110 | **Thesis:** Quaternion Neural Network applied to Visual Odometry System

- Artificial Intelligence (PDDL, Prolog)
- Interactive Grpahics (HTML, CSS, Javascript, OpenGL)

- Foundation of Computer Graphics (C++)
- Machine Learning (Python)
- Reinforcement Learning (Python)
- Robotics 1, 2 (Matlab)
- Medical Robotics (Matlab, OpenSim)
- Neural Network (Python) • Neuroengineering
- Vision and Perception (Python)
- Autonomous and Mobile RObotics (Matlab)
- Network Infrastructure
- Elective in AI, Human Robot Interaction (Python)

Bachelor's Degree in Computer Engineering

University of Modena and Reggio Emilia [09/2017 – 06/2020]

City: Modena | **Country:** Italy | **Final grade:** 101/110 | **Thesis:** IoT applied to Mobiliy: Smart Parking with Bosch

In partnership with Bosch and the Municipality of Mantova, I engineered a monitoring system designed for data ingestion from IoT parking sensors. The solution features a Java-based backend for data processing and a dedicated Android mobile application, enabling end-users to access real-time occupancy analytics.

HONOURS AND AWARDS

La Sapienza
Path of Excellence: selected for the Path of Excellence at Sapienza University, conducting advanced research on Quaternion-valued Convolutional Networks to optimize Visual Odometry algorithms, specifically targeting the improvement of geometric feature representation in computer vision.

La Sapienza
Excellent Graduate Award 2022: awarded by the Alumni Association as one of the top-performing graduates of the academic year, recognizing outstanding academic curriculum, merit, and exceptional final thesis results.

Teleconsys spa
Adux Award 2023: A results-driven professional characterized by unwavering determination, operational efficiency, and the proactive courage to tackle complex technical challenges and lead innovative transitions.

DRIVING LICENCE

Driving Licence: B

CERTIFICATIONS

[Udemy]
Figma

LANGUAGE SKILLS

Mother tongue(s): Italian

Other language(s):

English

LISTENING C1 **READING** C1 **WRITING** C1

SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

German

LISTENING B1 **READING** B1 **WRITING** B1

SPOKEN PRODUCTION A2 **SPOKEN INTERACTION** A2

French

LISTENING A2 **READING** A2 **WRITING** A2

SPOKEN PRODUCTION A2 **SPOKEN INTERACTION** A2

SKILLS

C / C++ / SQL / MongoDB / PHP / Matlab / Kirby / Docker / C#

Design and User Experience (UX)

HRI / Figma / Website Development / User Journeys / Storyboarding / Rapid Prototyping / Android Studio / Prezi / PowerPoint

UI Framework and Front-End

Bootstrap / Material-UI (MUI) / Javascript / CSS / React / HTML / SWIFT

AI/ML

REST API Integration / Prompt engineering / LLMs / Python
